Student Panel/ Discussion

Why study Biological Sciences at UD?

- Study science as part of a liberal arts education
- Our Department is growing and dynamic with faculty who work with students in class and lab.
- Our undergraduates often conduct research, study abroad, have internships, and learn in and out of the classroom.

Who are we?

- ~ 30 faculty
- ~90 Graduate students
- ~900 Undergraduates
- 200 - 275 incoming freshmen each year.

5 Undergraduate Programs

B.A. in

- Biological Sciences
- Biological Sciences Education

B.S. in

- Biological Sciences
- Biological Sciences with a Concentration in:
 - Cell and Molecular Biology and Genetics
 - Pharmaceutical Sciences - 3+4 with TJU

Beyond the Classroom

Research

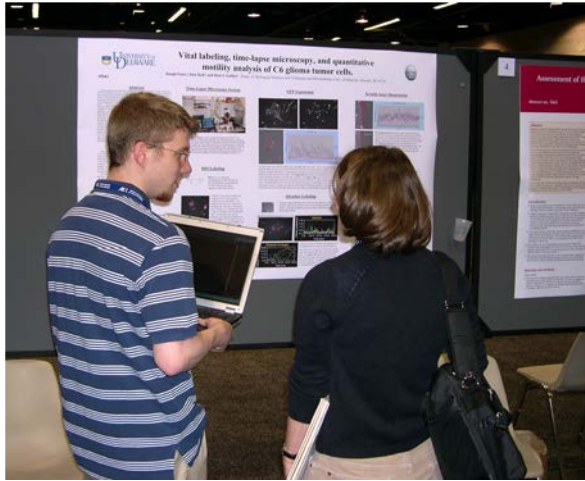

Outreach

Teaching

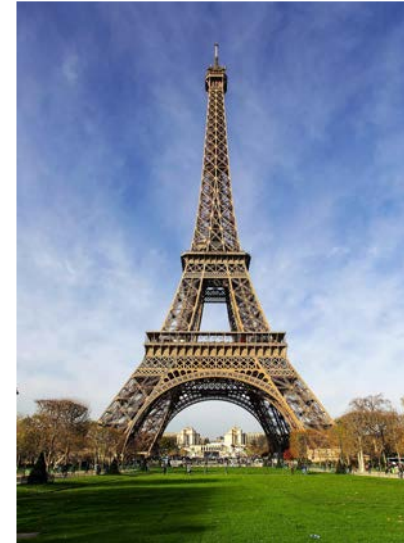

Beyond the Classroom

RESEARCH

- BISC 468 Undergraduate Research
- Summer Fellowships
- Senior Thesis

STUDY ABROAD

- BISC 367 *Seminar: The Story Behind the Science*
- Institute for Global Studies

Beyond the Classroom

ACADEMIC SUPPORT

- Faculty Advisors
- Professional Academic Advisor
- CAS Advisors
- Center for Health Profession Studies
- Health Profession Evaluation Committee
- The Office of Academic Enrichment

THERE'S AN RSO FOR THAT!

- Tri-Beta Biology Honor Society
- Making Doctors
- Pre-dental Society
- Medical Fraternity
- Medlife @ UD
- Habitat for Humanity
- And many more...

Living Learning Community: opportunity to live with other first-year biology majors

- There are study groups, group activities, and upper division peer mentors

After Graduation-Career Opportunities

Professional Schools

Medical

Dental

Physical Therapy

Physician Assistant

Optometry

Podiatry

Graduate School

Biology-related careers

Any career open to a liberal arts undergraduate degree.
